

Aesar Aulayain Hernando

Full-Stack Developer

Malang, Indonesia | 081232896909 | aesar.hernando.dev@gmail.com | [GitHub](#) | [Portofolio](#) | [LinkedIn](#)

Summary

Full-Stack Developer and Software Engineering student at SMK Telkom Malang with hands-on experience building modern web applications across frontend, backend, database, and API layers. Experienced with Next.js, React.js, TypeScript, NestJS, Prisma, SQL databases, REST APIs, and JWT authentication. Built and contributed to real-world platforms involving role-based access control, authentication and onboarding, order management, payment verification, API documentation, and scalable UI architecture

Technical Skills

Languages: TypeScript, JavaScript, Java, SQL
Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS
Backend: PHP, NestJS, Node.js, REST API, JWT Authentication
Database & ORM: MySQL, PostgreSQL, Prisma ORM, Supabase(PostgreSQL, Storage)
Tools & Technologies: Git, GitHub, Postman, Swagger, Figma, VS Code

Project Experience

TEFA SMK Telkom Malang | Frontend Developer | Next.js, Tailwind CSS, TypeScript **April 2026**

- Developed authentication and onboarding flows with role-based routing for five user types, integrating frontend interfaces with backend authentication services.
- Built and integrated responsive web interfaces with REST APIs to support role-specific workflows across the platform.
- Identified technical debt in the per-file color token architecture and refactored it into a centralized token system, improving consistency and maintainability of the design system.

Local Taste Hub | Backend Developer | NestJs, Prisma, PostgreSQL, REST API **May 2026**

- Designed and implemented the Orders module for a food ordering platform, covering backend business logic, database operations, and REST API integration across seven endpoints.
- Implemented JWT-based authentication and role-based access control for admin and user workflows.
- Developed automated PDF invoice generation and payment verification workflows for order processing.
- Created API documentation and automated testing workflows using Postman across eight system modules.

MockeT | Frontend Developer | Next.js, Tailwind CSS, TypeScript **Running**

- Developed responsive interfaces for school event ticketing and management workflows.
- Integrated frontend applications with REST API, authentication, payment, and refund workflows.

Leadership Experience

Chief Executive - Moklet Victory Program (MVP)

March 2026

- Led a team of 20 members across multiple divisions to plan and execute the program within established timelines.
- Coordinated responsibilities, meetings, project timelines, and cross-team communication throughout the preparation and execution phases.

Education
