

Aesar Aulayain Hernando

Full-Stack Developer

Malang, Indonesia | 081232896909 | aesar.hernando.dev@gmail.com | [Github](#) | [Portofolio](#) | [LinkedIn](#)

Summary

Full-Stack Developer and Software Engineering student at SMK Telkom Malang with hands-on experience building web applications across frontend, backend, database, and API layers. Experienced with Next.js, TypeScript, NestJS, Prisma, SQL, REST APIs, and JWT authentication.

Technical Skills

Languages: TypeScript, JavaScript, Java, SQL

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend: NestJS, Node.js, REST API, JWT Authentication

Database & ORM: MySQL, PostgreSQL, Prisma ORM, Supabase

Tools & Technologies: Git, GitHub, Postman, Swagger, Figma, VS Code

Project Experience

TEFA SMK Telkom Malang Frontend Developer Next.js, Tailwind CSS, Typescript	April 2026
- Developed authentication and onboarding flows with role-based routing for five user types, integrating frontend interfaces with backend authentication services. - Built and integrated responsive web interfaces with REST APIs to support role-specific workflows across the platform. - Identified technical debt in the per-file color token architecture and refactored it into a centralized token system, improving consistency and maintainability of the design system.	
Local Taste Hub Backend Developer NestJs, Prisma, PostgreSQL, REST API	May 2026
- Designed and implemented the Orders module for a food ordering platform, covering backend business logic, database operations, and REST API integration across seven endpoints. - Implemented JWT-based authentication and role-based access control for admin and user workflows. - Developed automated PDF invoice generation and payment verification workflows for order processing. - Created API documentation and automated testing workflows using Postman across eight system modules.	
MockeT Frontend Developer Next.js, Tailwind CSS, Typescript	July 2026
- Developed responsive interfaces for school event ticketing and management workflows. - Integrated frontend applications with REST APIs, authentication, payment, and refund workflows. - Implemented role-based interfaces for different user types across the platform.	

Leadership Experience

Chief Executive - Moklet Victory Program (MVP)

March 2026

- Led cross-functional teams across multiple divisions to plan and execute the program within established timelines.
- Coordinated responsibilities, meetings, project timelines, and cross-team communication throughout the preparation and execution phases.
