Summary

I am a Software Engineering student at SMK Telkom Malang and an aspiring Full-Stack Developer with hands-on experience in frontend and backend development using Next.js, React.js, TypeScript, NestJS, Prisma, SQL, REST APIs, and JWT Authentication.

Technical Skills

Programming Languages: TypeScript, JavaScript, Java

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend: NestJS, Node.js, REST API, JWT Authentication

Database & ORM: MySQL, PostgreSQL, SQL, Prisma ORM, Supabase

Tools & Technologies: Git, GitHub, Postman, Swagger, VS Code, Railway, Vercel, Ubuntu Server

Project Experience

TEFA SMK Telkom Malang | Frontend Developer | Next.js, Tailwind CSS, TypeScript **April 2026**

- Developed authentication and onboarding flows with role-based routing for five user types, integrating frontend interfaces with backend authentication services.
- Built and integrated responsive web interfaces with REST APIs to support role-specific workflows across the platform.
- Identified technical debt in the per-file color token architecture and refactored it into a centralized token system, improving consistency and maintainability of the design system.

Local Taste Hub | Backend Developer | NestJS, Prisma, PostgreSQL, REST API **May 2026**

- Designed and implemented the Orders module for a food ordering platform, covering backend business logic, database operations, and REST API integration across seven endpoints.
- Implemented JWT-based authentication and role-based access control for admin and user workflows.
- Created API documentation and automated testing workflows using Postman across eight system modules.

MockeT | Frontend Developer | Next.js, Tailwind CSS, TypeScript **July 2026 - Present**

- Developing a mobile-first QR scanner check-in module with instant four-status feedback (Valid, Used, Invalid, Wrong Event) for fast-paced event operations.
- Implemented an integrated four-step ticket purchasing flow using the Midtrans Snap UI, featuring quota validation and a real-time countdown to prevent overselling.
- Built a multi-role dashboard (User, Sub-Organization, Admin, Talent/Mentor) featuring a consistent table pattern: search, filter chips, CSV export, and pagination.

Leadership Experience

Program Lead - Moklet Victory Program (MVP) **March 2026**

- Led a 20-member team across multiple divisions, coordinating responsibilities and deliverables to keep the program on schedule.
- Coordinated execution from preparation through event day, adapting plans to changes while ensuring key activities ran smoothly through the end of the event.

Education

SMK Telkom Malang **2024 - Present**
